PATHWAYS

The course provides a foundation for senior secondary studies in

- *Object Design (University College Program)*,
- *Housing and Design*, Level 3
- *Student Directed Inquiry*, Level 3

Also a range of Vocational Education and Training (VET) programs or tertiary study in areas such as

- fashion design
- art
- craft and design
- construction
- metal fabrication and engineering
- furniture production
- manufacturing
- soft furnishings.

Contributes 15 points to TCE

Successful completion of *Object Design* offers students a TER score as well as 25% credit to a range of UTas Courses.

COURSE DESCRIPTION

Design and Production - Level 2

Looks at:

Using the design process in response to design briefs to produce/make a range of items from textiles such as

- clothing
- wearable art
- artefacts
- accessories
- cushions
- bags
- recycled/remodelled clothing.

No Pre-requisites

STUDY INCLUDES

- Students use technical skills and processes relevant to textile production.
- Design and production phases are reviewed and reflected on and adjust design decisions throughout the process.
- Learners build the skills in planning and implementing projects, enabling them to manage resources effectively.
- A design folio records the design process for a major practical project.

ASSESSMENT

Internal Assessment (15 TCE Points)

Object Design (UTas assessment process—leads to TER Score)

THIS COURSE IS FOR YOU IF:

- You like making things with your hands
- You are able to think 'outside the square'
- You enjoy solving problems
- You like reusing/upcycling
- You are creative
- You are interested in different types of design: such as:
  - Furniture
  - Fashion
  - Interiors
  - Costuming
  - architecture
